ADVANCED STONE CARE

STONE CLEANER

PRODUCT FEATURES

- ✓ Glaze `N Seal Stone Cleaner is a professional neutral cleaner meeting the unique cleaning requirements of fine stone. Rinses free and can be damp mopped or used in automation scrubbers.
- ✓ Stone Cleaner is an effective and economical cleanser to remove dirt, fingerprints, scuff-marks, body-oil and soot.
- ✓ Can be used on marble, granite, terrazzo, travertine, limestone, sandstone, or any natural stone or masonry surface.
- ✓ In addition to cleaning, Stone Cleaner leaves a conditioned silky-smooth surface while enhancing the color and appearance of the stone.
- ✓ Pleasant fragrance.
- ✓ Environmentally responsible formulation will not harm water sources.
- ✓ When used regularly it will enhance the natural beauty of stone and due to the special formulation, heel and scuff-marks will be less evident.
- ✓ Will not dull etch, or scratch polished stone.
- ✓ Will not affect grout or stone adhesive materials.
- ✓ When repolishing stone with glaze `N Seal Marble Refinisher or Polishing Cremes I & II, Stone Cleaner is especially recommended for cleaning up residue.

APPLICATION

1. Use 4 ounces per gallon of water for light cleaning and damp mopping or use in automatic scrubbers, no rinsing required.
2. Use 8 ounces per gallon of water to remove Glaze `N Seal Marble Refinisher or Creams.
3. Use 12 ounces per gallon of water for extremely soiled conditions. Clear water rinse.

APPROXIMATE COVERAGE

5,000-10,000 square foot per gallon when properly diluted with water.
