ADVANCED STONE CARE

STONE GLOSS

PRODUCT FEATURES

- ✓ Restores luster and enhances color.
- ✓ Leaves no oily residue and does not smudge.
- ✓ Easy to apply and economical.
- ✓ Provides a clear durable barrier against materials that may damage the stone.
- ✓ Ideal for use on decorated fixtures, countertops, tables, vanities and walls.

PRODUCT DESCRIPTION

Stone Gloss combines an especially hard wax with other facilitating ingredients for the beautification and protection of marble, onyx, granite, polished limestone, serpentine, terrazzo, and other fine stone.

Stone Gloss is formulated for highly polished stones rendering most light abrasions less visible while restoring a "like new" luster. *Stone Gloss* is especially ideal for use on tables, bathrooms and bars that experience exposure to water and chemicals that can harm the surface.

PREPARATION

Surface should be cleaned with *Stone Cleaner* to remove any surface dirt or grime, Remove other finishes such as waxes and acrylics with *Stone Stripper*.

APPLICATION

1. Shake container vigorously.
2. Apply approximately 1/2 tsp. per 4 square feet of surface area.
3. Distribute drops of *Stone Gloss* on surface to be buffed.
4. Spread the *Stone Gloss* evenly over the surface with a small pieces of cloth.
5. After spreading, allow to dry (3-5min.) to a haze without buffing.
6. With a clean dry cloth, buff surface lightly and rapidly until surface attains shine. If a polishing machine is used for buffing, use a white synthetic polishing pad.

APPROXIMATE COVERAGE

16 oz, 800 -1,600 Sq. Feet (80-160 Sq. Meters)
