

TILE & GROUT CLEANER

CONCENTRATED CLEANER FOR TILE AND GROUT IN KITCHEN AND BATH. REMOVES LIME, SCALE AND HARD WATER DEPOSITS.

PRODUCT DESCRIPTION

Glaze 'N Seal Tile & Grout Cleaner is an easy to use, non-abrasive concentrated formulation specifically designed to clean and restore old, dirty tile and grout. It is also excellent for removing soap scum and build-up, lime, hardwater stains, scale and light rust stains on contact without scrubbing.

USES

Use on most ceramic tile, sealed clay tile, white grout, countertops, showers, tub areas, chrome fixtures, stainless steel and fiberglass and glass shower doors. Use on any surface where a mild acidic cleaning solution is needed. **(Do not use on polished marble or polished limestone.)**

FEATURES

- Easy to use maintenance cleaner for kitchen or bathroom
- NO heavy scrubbing required
- Biodegradable
- Mild acid plus cleaners
- Removes hard water stains, soap scum, minerals
- Slight, clean fragrance

APPLICATIONS

1. For light cleaning dilute one part cleaner to 10 parts water. Always add acid to water.
2. For heavy soil buildup use full strength.
3. Apply solution to surface with clean sponge or mop. Allow solution to stand one to two minutes. Scrub area with a stiff bristle brush, sponge or pad.
4. Rinse well and allow to dry.

For heavily soiled grout joints. Wet joints with clean water

first, then apply cleaner. Allow cleaner to stand and scrub joints with a stiff bristle brush. Rinse joints thoroughly with clean water.

NOTE: It is recommended that grout joints be sealed with **Glaze 'N Seal Acrylic Grout Sealer** or a **Glaze 'N Seal Penetrating Sealer** to preserve, protect and maintain the natural appearance of the grout.

LIMITATIONS

- Do not use on metallic glazed tile, marble, terrazzo or colored grout.
- ALWAYS TEST A SMALL AREA FIRST. Some tile and tubs are sensitive to a concentrated cleaner. If any etching is noticed, wash promptly.

PRECAUTIONS

Warning: Contains phosphoric acid. In case of external contact, flush with cold water. If irritation persists get medical attention. If swallowed, give 1 or 2 glasses of water and call a physician. Handle with care. KEEP AWAY FROM CHILDREN.

DO NOT MIX or combine with any other chemical or detergent as harmful fumes may result.

Neutralizing Before Sealing. Before applying any sealer or finish to the cleaned tile or grout the surface should be chemically neutralized with a product like **Glaze 'N Seal Neutralizing Rinse** or a similar alkaline cleaner.
